The minutes of 2nd May 2017 were read and approved

Matters Arising

No matters arising

Annual Report of the Council

The Chairman read the Annual Report/Newsletter of the Parish Council.
A copy is in the Minute Book.

Matters of Concern raised by Parishioners

Potholes within the village are causing huge concern, the potholes on the Cart Road do slow the traffic but the potholes on the tarmac roads, especially up the centre, have burst two tyres and parishioners would like the Parish Council to contact the various bodies, although these bodies have been contacted privately. The Highways Dept has been contacted but no response to either phone calls or e-mails.

The Garden Waste Skip arrived last Friday, confirmed it will be here once a month. A suggestion was made that perhaps Gwennie could use her electronic system to inform people within the village when it's here.

Concern was again raised regarding a vehicle being driven across the green. More discussion took place regarding the corners and edges that vehicles are damaging.

Fellnet are very proud to confirm that they are upgrading equipment to enable the doubling of the service provided at no extra cost, also to ensure no channel hopping will occur. There are over 60 houses now on the system at £20 per household per month.

Vehicle parked on the village green, owner visiting village at present, perhaps a Councillor could make contact to resolve this matter.

There was no further business, Chairman Richardson thanked all those attending.

Meeting Closed at 8.05pm
