During a very heavy downpour, the drain in the village green bubbled up and created a large puddle, a post has now been put in the hole to show where the hole is. Possible drain collapse. As discussed at previous meetings the drains in the village green are the responsibility of the Parish Council. After much discussion, the Councillors agreed to meet on Saturday morning to have a look and decide if a digger is required to investigate the drainage further.

It was also reported the gutter behind the recycling bins is blocked and requires a digger to dig it out to stop the flooding in the recycling area.

Clerk to email A Armstrong, EDC and ask if there are any grants etc to help with drainage, also to ascertain when the Highways will be attending to the block drains on the roadside in the village and those near Newbiggin Mill.
